Brief Report:

Charce Andrei is the youngest in the family. He has 3 siblings; the eldest one has a mental disability. The 2nd child is still studying, but the third one is no longer in school, his father is a welder or sometimes a construction or a labourer that earns 500 pesos a day. His mother is a full time wife. And she has diabetes and she has to take medicine everyday, good thing she can avail free medicine at the centre but if it is not available she needs to buy it at a drug store. So the father has to work hard to sustain the needs of the family.
