Brief Report:

The child has asthma; she will take only Lagundi if she experiences this condition. In a small house, the grandfather made a division so that they can have their own rooms to use. The father of the child works as a painter earning P500 a day, but how many months will depend on the contract. But usually only 3 months contract and if it is done, the father has to do extra labor just to earn money. The mother has a side-line once a week washing clothes P200 a day. They have no water inside, they have to fetch from outside which cost 500 monthly. Their place is prone to flood during the typhoon season.
