### Brief Report:

Eliese Klane is the second child of the family, her brother is in grade 2. The relationship of her parents is not so good because for almost 12 years that they together their relationship is on and off. Sometimes they are not together but for a few months they are together again. The father works as a finishing polisher for almost 2 years and earned 10,800 pesos a month. The mother is a helper and manicurist in the salon, the owner of a salon adopted her mother. They live in the house for rent that's owned by the owner of a salon that adopted the mother of Eliese they are free but needs to pay the share for water bill 900 pesos a month and the electric bill cost 600 pesos per month. All the expenses get from the earning of her both parents. The mother earned 8,000 pesos a month. The reason why the mother applies for a scholarship it's because she wants to change her bad habits that she is facing. She knows that OIKOS can help her to change.
