### **Brief Report:**

Emmanuel is the youngest of the family and he is 4 years old this year. He's father is a tricycle driver that can drive 5x a week and renting a tricycle cost 220 pesos per day and sometimes he earned 400 to 500 pesos per day, the remaining balance he takes out for the family. To help her husband the mother needs to do something to help for the expenses of the family, she starts a small business sari-sari store and buy and sell things and goods that can needs in the household. Emmanuel had 2 siblings that is still studying in college and high school. They get all their expenses in the income of the father, for water bill from outside cost 500 pesos a month, they also renting a house cost 1000 pesos per month and the electric bill 1000 pesos a month. They needs help because this year Emmanuel needs to start his schooling and if the child start of his schooling then additional expenses for them and it possible to stop the older child to give way to the younger one.
