House (building materials): Concrete | **Wood** | Cardboards | Mixed Debris | Others

House Lease: Owned | Rental | Share | Squatter | **others (free)**

Neighbourhood Community Risk: No Risk | Low Risk | Mid Risk | **High Risk**

Brief Report:

This child is so quiet even during our Assessment she only have few words to say. During our screening we find hard to take her a picture. But the mother told us that she is playful. They live in Kaimito near the creak they make an upstairs so that the water can't easily goes into their house if there is a heavy rain. There Comfort Room is just a file of a hollow block, if water arises from the creak it would be difficult for them to use the CR. So Princess Dianne is the youngest child, her father works as driver earning 10,000 and mother did a sideline work in washing and ironing clothes once a week. There 2 children are both studying in elementary and high School. They live in a house for fee, but pay electricity 800 per month and water 600 a month.
