### **Brief Report:**

Reychelle is turning to 4 years old this year, and she is the 6<sup>th</sup> child of the family her 3 step-siblings are in the province with their grandparents who taking care of them and supports the study. The mother is in the house to take care of them but sometimes if it is in need the mother gets some extra laundry to help her husband. The father only works for the family as tricycle a driver for almost 8yrs. And earned 8,000 pesos per month, but sometimes the father attacked his asthma he cant drive so the mother help her to get money for their daily needs because the father has a maintenance of medicine 45 pesos per day so for 1 month 1350 pesos cost for the medicine, and from the income of the father they get all their needs and expenses for the house rent 1000 pesos per month, water bill outside 600 pesos per month and for the electricity is 1500 per month. And all the member of the family had asthma so if the father is sick the grandparent support for them, and also the family of her mother but a little amount of money.
