Brief Report:

The mother is graduate of commerce. But she stops working and decided to look after her children. Now they stay in her mother in law for many years already. The father work as a driver and the mother during school days cook food to sell but only 3 times a week. So, most of the time they only depend on the salary of her husband. In their case they only have to pay for the water supply, her mother in law is the one who is paying for the electricity. The mother in law are asking them if when is their plan to separate and find a place to rent. But they always say that the salary of her husband is not enough to pay for the rent and other expenses.
